

## Lifts and Escalators

---

Engineering – Installation – Maintenance

### About

Elevator Concepts Ltd. (**ECL**) is Kenya's premier provider of lift and escalator installation and maintenance services, and we truly understand the meaning of customer service.

“**Service in Motion**” - many companies have vision statements, but ours reflects the foundation of our business; “**service**”.

The core of our business is the safe installation and maintenance of vertical transportation equipment, but on a more fundamental level we provide **service** to our customers. These value-added services include design calculations for new buildings, professional training courses (partnering with Quantum FM) and contract management.

### Maintenance

**ECL** developed its maintenance department on the ability to professionally maintain all the major brands of equipment. We have supply agreements with all the main global spare parts suppliers, and we have an extensive stock in our local offices.

Our technicians are highly experienced in various manufacturers technology, and all are provided with their own, GPS-tracked motorcycles with spare parts to cover most elevator or escalator failures.

This all adds up to the **fastest response and repair** time for most failures.

---

A new **ECL** maintenance customer recently stated:

*“ECL have been a life saver for our commercial building in Nairobi. We switched to ECL having encountered difficulties with the previous service providers. The service has been impeccable, prompt and with a personal touch.. Furthermore, certain issues that had existed since handover are now functioning perfectly.”*

## Installation

**Nidec**  
All for dreams

**ECL** are delighted to have entered into an exclusive partnership arrangement with **Nidec** Elevator; a Japanese-American corporation with elevator manufacturing facilities in the USA and China.

**Nidec** is the undisputed global leader of the electric motor industry, and is at the forefront of elevator technology. **Nidec** have completed over one million elevator installations worldwide, with a market value of US \$42 billion and over 130,000 employees.

**ECL** can therefore fulfill the requirements of any new project, with the proven, safe designs of **Nidec** Elevator.

Contact us now!

The 4 million annual visitors to the Statue of Liberty in New York ride in **Nidec** elevators.

This **Nidec** machine drives elevators at 10 m/sec
